

**DELHI PUBLIC SCHOOL ANAND**  
(UNDER THE AEGIS OF THE DELHI PUBLIC SCHOOL SOCIETY)  
Session 2023-24

Circular No.: DPSA/P/2023-24/31

Date: 05/10/2023

Dear Parent,

As you are aware that the National Education Policy was released in 2020. The NEP focuses on using 21<sup>st</sup> century teaching practices and technology with emphasis on conceptual learning to make our students independent learners and critical thinkers. **Delhi Public School Anand** is committed to making this vision come alive.

In view of this, we are excited to announce that we are partnering with **AcadAlly**, an edtech platform, to leverage technology and artificial intelligence to enhance the learning experience of our students in Math and Science. AcadAlly's objective is to enhance every student's performance by integrating the trinity of pedagogy, curriculum, and technology. The AcadAlly program follows an innovative pedagogical framework which is designed to identify learning gaps in students, deepen conceptual understanding and constantly check their progress. AcadAlly will empower our teachers to provide our students with personalized learning paths that meet their unique needs and create a more dynamic learning environment.

More details about AcadAlly are given on [www.acadally.com](http://www.acadally.com).

The program will be implemented in the following way:

- Students will be asked to download the AcadAlly app and log in on 10th Oct. The login details for your ward will be shared with you through email, SMS and whatsapp.
- AcadAlly supports a student's learning journey by monitoring their performance through solving practice exercises, quizzes or chapter tests. Our system automatically analyses the learner's mistakes and generates recommendations for videos and other helpful resources.
- Teachers, on the other hand, will use the reports generated by AcadAlly to understand how they can support learning in the class and continuously monitor the performance. You will be happy to know that our teachers have undergone rigorous training to use this technology to provide the best learning experiences.
- Your child will use the AcadAlly app for approximately 15-20 minutes each day. We request you to supervise this study so that your child completes the assignments on time.

As a school, **Delhi Public School Anand** is committed to ensuring that technology is used in a responsible and safe manner. Our partnership with AcadAlly includes rigorous security and privacy protocols that are designed to protect our students' personal information and ensure that their online activities are safe and secure.

We are excited to embark on this journey and we believe that this partnership will greatly benefit our students. We look forward to your enthusiastic support to make this program a success. If you have any queries, please get in touch with [support@acadally.com](mailto:support@acadally.com).

Yours sincerely

*Mitali Roy*
